

## HOUSEHOLD HAZARDOUS WASTE FUNDING SOURCES 2002

### **California Household Hazardous Waste Grant Program**

Provides funding for proposed programs or enhancement of existing household hazardous waste programs. Funding is available for programs that will expand or initially implement HHW programs such as: collection programs, educational programs, load checking programs, and programs emphasizing waste reduction, source reduction, reuse or recycling of HHW.

**Funding:** Approximately \$3 million in grant funds were available in the 10<sup>th</sup> funding cycle for fiscal year 2001/2002. Funding for the 11<sup>th</sup> cycle has not yet been determined.

**Eligibility:** CA cities, counties, and local agencies with direct responsibility for waste management

**Application:** 11<sup>th</sup> cycle applications will be released in December 2001 or January 2002. Contact the California Integrated Waste Management Board.

### **Pesticide Environmental Stewardship Program (PESP)**

Provides funds for research, education and demonstration of reduced risk pest control techniques and products in both agricultural and non-agricultural settings.

**Funding:** They anticipate receiving funds for 2002. Up to \$40,000 per project.

**Eligibility:** States, territories, federally recognized tribes and any agency or instrumentality of a state, including state universities. A local government agency can apply together with any of the above, but the application must be through the eligible agency.

**Application:** Applications should be available in March 2002. Contact EPA Region 9 for more information.

### **EPA Environmental Education Grants Program (EE)**

The goal of this program is to provide financial support for projects that design, demonstrate, or disseminate environmental education practices, methods or techniques. Environmental education increases public awareness and knowledge about environmental issues and provides the public with skills to make informed decisions and take responsible actions. These grants are designed to stimulate environmental education by supporting projects that address EPA educational priorities. Applications must have an educational component that enhances critical thinking, problem solving, or decision-making skills. Applicants must demonstrate how the proposed project is new or has potential for wide application and addresses a high priority environmental issue.

**Funding:** Regional offices accept and process applications up to \$25,000 (half of their allocation is directed at projects of \$5,000 or less). EPA headquarters in Wash. D.C. accepts and processes applications of greater than \$25,000 and less than \$150,000. A 25% matching share is required for larger grants.

**Eligibility:** Local, tribal or state education agencies, non-profit organizations, state environmental agencies and non-commercial educational broadcasting agencies, colleges and universities

**Application:** The Request for Proposals was published in August 2001 and responses are due Nov. 15, 2001. Applicants should contact EPA Region 9 for an application package.

**Public Involvement and Education Fund (PIE Fund)**

This fund is administered by the Santa Monica Bay Restoration Project (SMBRP). Its purpose is to encourage and support the development of a wide range of public involvement and education programs that educate LA County residents about ways to restore and protect the Santa Monica Bay. The proposal must relate to the Santa Monica Bay. Projects are sought which use a variety of approaches to raise awareness of Bay related issues.

**Funding:** Funding amount for 2002 has not yet been determined.

**Eligibility:** Individuals, businesses, schools, non-profit organizations, trade groups, local government agencies

**Application:** Will be available in January 2002. Call SMBRP for more details.

**Contact:**

Stephanie Katsouleas, 213-576-6641  
Santa Monica Bay Restoration Project  
320 W. Fourth Street, 2<sup>nd</sup> Floor  
Los Angeles, CA 90013

**Safe Neighborhoods, Parks, Clean Water, Clean Air, and Coastal Bond Act of 2000 - Proposition 12**

Voter approval of this bond act provided \$25 million for the restoration of the Santa Monica Bay in accordance with the goals and priorities of the Santa Monica Bay Restoration Plan. The goals include pollution control/abatement, habitat restoration and assessment / monitoring / research / education to benefit the waters, habitats, natural resources and other beneficial uses of the Santa Monica Bay and its watersheds.

**Funding:** A maximum of \$2 million per project per year is available. Matching funds are not required, although they are strongly encouraged.

**Eligibility:** Any public entity or non-profit organization. Joint proposals between multiple organizations involved in similar or related activities are encouraged.

**Application:** Call SMBRP for next funding cycle. The next Request for Proposals will be released in November 2001.

### **319(h) Nonpoint Source Implementation Grant**

This program funds watershed management and implementation projects designed to reduce, eliminate or prevent water pollution and to enhance water quality. It focuses on controlling activities that impair beneficial uses and on limiting pollutant effects. Additional focus is on management activities that lead to reduction and/or prevention of pollutants such as sediments, nutrients, toxic metals, pesticides, industrial and commercial toxicants, and urban runoff.

**Funding:** \$25,000-\$500,000 (approximately) for the Federal Fiscal Year 2002 grant cycle. A 40% matching share is required.

**Eligibility:** Non-profit organizations, governmental agencies and educational institutions

**Application:** Request for Proposals will be released in March 2002 for Federal Fiscal year 2003 funds. Contact State Water Resources Control Board for details.

**Contact:**

### **Pollution Prevention Leadership Grants**

Focuses on the development and implementation of high quality small-scale pollution prevention projects that are carefully designed and monitored. They must involve source reduction. Persistent bioaccumulative and toxic chemicals and pollution prevention for the consumer are two of their four priority areas.

**Funding:** This grant is funded on a discretionary basis. If funding is available, the solicitation notice will be released in January or February 2002.

**Eligibility:** Non-profit organizations and local governments

**Application:** Contact EPA Region 9
